The Lofoten archipelago

A SMALL SKI TOURING PARADISE

The Lofoten Islands form an archipelago located north of the Arctic Circle. This treasure of nature offers breath-taking mountain landscapes and deep blue fjords. The climate is particularly mild here, thanks to the Gulf Stream bordering its coastline.

« The beauty of this place is simply astounding. »

A SCANDINAVIAN LODGE. COMFORTABLE. ADJUSTABLE

Our "Lodge" accommodations.

After 5 seasons offering our ski trips in Lofoten, we have been growing and today we offer you 2 Lodges in Henningsvaer, both of them are at the height of the experience we want to offer you: both are authentic and comfortable with their own style but very Scandinavian.

Lodge 1, is an accommodation that combines tradition and modernism with very comfortable environments. It is where we started and we could say that it is our main Lodge.

Lodge 2, just a few meters away is another great Lodge. A fully restored house that is practically on top of the water.

“Henningsvaer” traditional fishing village.

LODGE 1

“Where everything started”

The lodge is much more than the base camp: it's the neuralgic centre, the cosy nest, the place to share...and it absolutely measures up to the experience we wish to offer you: it is as authentic as it is comfortable.

Ideally situated in the heart of our playground in Henningsvær, the lodge is one of the oldest fishermen house in the port. Today, it has been renovated thinking on every single detail to offer you the best possible ski experience in the Lofoten Islands!

It consists of two living rooms, five bedrooms and four bathrooms, distributed on two floors. A lodge ready to offer you all the necessary comfort after an amazing ski day.

OUR
STRENGTHS

- . Sauna
- . Drying room (boots, gear...) . Blackcrows ski test
- . High speed Wifi
- . Ski repair workshop
- . Ocean kayaks

LODGE 2

“ Just in the water ”

This lodge was an **old fishermen's house from 1870** and has been completely renovated in 2016.

Old parts of the house have been preserved adding all the comfort, the color of the Lodge is a very characteristic light green from the old times while the inside decoration is a modern and minimalist Scandinavian style.

The main house has **4 rooms**: 3 double rooms and 1 twin room. In addition to 2 bathrooms.

There is also a second house with **2 extra rooms**: 1 double and 1 twin in the attic with a bathroom.

This magnificent **Lodge is basically located on the sea**, a very typical construction of the area.

The house has a living room with a fireplace and TV to relax, as well as several spaces and corners for reading and a large kitchen where breakfast is served by the hosts of the house.

On the ground floor there is also a second kitchen-dining area with a large wood-burning oven where Sigurd and Ann-Cathrin make bread for breakfast, among other things.

There is also space on this floor to leave the material and dry it, as well as a **sauna with direct access to the sea** for the more daring.

There are also **kayaks** available for those who want to enjoy Henningsvaer by the sea.
